CHOCOLATE

Kit di stampi termoformati riutilizzabili creati dai designer di Silikomart per la realizzazione di soggetti 3D in cioccolato.

Reusable thermoformed moulds kits created by Silikomart designers for the creation of a 3D chocolate subjects.

Kit de moules thermoformés réutilisables créés par les designers de Silikomart pour la réalisation de sujets 3D en chocolat.

Modo d'uso:

- 1 - Riempire gli stampi con il cioccolato temperato quindi capovolgere lo stampo su una griglia e lasciar colare il cioccolato in eccesso. Ripetere l'operazione fino ad ottenere lo spessore desiderato.
- 2 - Lasciare lo stampo capovolto sulla griglia fino a completa cristallizzazione del cioccolato (circa 4 ore).
- 3 - Una volta che il cioccolato si è rappreso sfornare sbattendo delicatamente gli stampi sul piano di lavoro, i vari componenti in cioccolato si staccheranno facilmente. Qualora non accadesse esercitare una leggera pressione sullo stampo spingendo la sagoma in cioccolato verso l'esterno.
- 4 - Incollare i componenti tra loro utilizzando del cioccolato fuso o scaldandone le estremità con un rapido passaggio su una teglia calda.

How to use:

- 1 - Fill the moulds with tempered chocolate then turn the mould upside down on a grid. Repeat the process until you will get the aimed thickness.
- 2 - Leave the mould upside down on the grid until the chocolate is completely crystallized (about 4 hours).
- 3 - Once the chocolate has set, unmould by gently tapping the moulds on the working surface, the chocolate components will come off easily. If this does not happen, apply a light pressure on the mould by pushing the chocolate shape outwards.
- 4 - Stick the components together using melted chocolate or warm up the edges with a quick passage on a hot baking tray.

Mode d'emploi:

- 1 - Remplir les moules de chocolat tempéré puis retourner le moule sur une grille et laisser couler l'excès de chocolat. Répéter l'opération jusqu'à obtenir l'épaisseur souhaitée.
- 2 - Laisser le moule à l'envers sur la grille jusqu'à cristallisation complète du chocolat (environ 4 heures).
- 3 - Une fois que le chocolat a cristallisé, démouler en frappant doucement les moules sur la surface de travail, les différents composants de chocolat se détacheront facilement. Si cela ne se produit pas, appliquer une légère pression sur le moule en poussant la forme de chocolat vers l'extérieur.
- 4 - Coller les composants ensemble à l'aide d'un peu de chocolat fondu ou en chauffant les extrémités avec un rapide passage sur une plaque chaude.
